All staff and pupils must appreciate, however, that their own safety and that of others also depends on their individual conduct and vigilance while on the school premises or while taking part in school-sponsored activities.

Redland Primary School Health and Safety Policy

5.0 THE DUTIES OF ALL MEMBERS OF STAFF

5.1 All staff are expected to familiarise themselves with the health and safety aspects of their work.

5.2 All staff have a responsibility to:

- (i) take reasonable care of their own health and safety and that of any other persons who may be affected by their acts or omissions at work;
- (ii) follow agreed working practices and safety procedures;
- (iii) report any accident, near miss, incidents of violence, including verbal abuse or any hazard;
- (iv) ensure health and safety equipment is not misused or interfered with.

6.0 HIRERS, CONTRACTORS AND OTHERS

6.1 The Headteacher will seek to ensure that hirers, contractors and others who use the school premises conduct themselves and carry out their operations in such a manner that all statutory and advisory safety requirements are met at all times.

6.2 When the premises are used for purposes not under the direction of the Headteacher, then the principal persons in charge of the activities for which the premises are in use will be expected to maintain the safe practices as indicated in paragraph 3.2 of this document.

6.3 When the school premises or facilities are being used out of normal school hours for a school-sponsored activity then, for the purposes of this policy, the organiser of that activity, even if an employee, will be treated as a hirer and will comply with the requirements of this section.

6.4 When the premises are hired to persons outside the employment of the LA, it will be a condition of all hirers, contractors and others using the school premises or facilities that they are familiar with this policy, that they comply with all safety directives of the Governing Body and that they will not, without the prior consent of the Governing Body:

- (i) introduce equipment for use on the school premises;
- (ii) alter fixed installations;
- (iii) remove fire and safety notices or equipment;
- (iv) take any action that may create hazards for persons using the premises or the staff or pupils of the school.

Redland Primary School Health and Safety Policy

6.5 All contractors who work on the school premises are required to ensure safe working practices by their own employees under the provision of the Health and Safety at Work Act 1974 and must pay due regard to the safety of all persons using the premises.

6.6 In instances where the contractor creates hazardous conditions and refuses to eliminate them or to take action to make them safe, the Headteacher will take such actions as are necessary to prevent persons in his or her care from risk or injury. This may include requiring the contractor to stop work or leave the site.

6.7 The Governing Body will draw the attention of all users of the school premises (including hirers and contractors) to Section 8 of the Health and Safety at Work Act 1974, which states that no person shall intentionally or recklessly interfere with or misuse anything which is provided in the interests of health, safety or welfare.

7.0 STAFF CONSULTATIVE ARRANGEMENTS

7.1 The Governing Body, through the Headteacher, will make arrangements for full and proper consultation with employees on health and safety matters. The nominated safety representatives of each accredited trade union or staff association will be offered a role in these consultations.

8.0 EMERGENCY PLANS

8.1 The Headteacher will ensure that an emergency plan is prepared to cover all foreseeable major incidents which could put the occupants or users of the school at risk. This plan will indicate the actions to be taken in the event of a major incident so that everything possible is done to:

- (i) save life;
- (ii) prevent injury;
- (iii) minimise loss.

8.2 The plan will be agreed by the Governing Body and be rehearsed as appropriate by staff and pupils. The result of all such rehearsals will form part of the regular risk assessment survey. This sequence will determine the priorities of the emergency plan and the outcome will be reported to the Governing Body.

9.0 SOURCES OF ADVICE AND TECHNICAL ASSISTANCE

9.1 Whenever required, the Governing Body, Headteacher and other staff are to seek advice from the LA, the Council's occupational health and safety service or other competent persons to

Redland Primary School Health and Safety Policy

ensure that the most current and relevant information is used in carrying out this policy.

11.0 SPECIFIC PROCEDURES AND FURTHER GUIDANCE

11.1 The Governing Body and the Headteacher will ensure that written procedures, preceded by risk assessments, are produced and maintained to provide detailed and current information about the specific health and safety arrangements in place to deal with particular risks and situations. These procedures will give instructions as to how staff should carry out duties or activities and will clearly state who is responsible for doing what and in what circumstances (normal and abnormal). All staff will be informed about these procedures.

12.0 CONSISTENCY OF POLICIES

12.1 This policy should be read alongside the following other school policies:

- Safeguarding and Child Protection Policy

LA Policy Statement

Appendix 1 to Redland School
Health and Safety Policy

Wiltshire Council

Health, Safety and Welfare Policy Statement for Schools

1.0 STATUS OF POLICY

- 1.1 This statement is subsidiary and complementary to the corporate policy issued by the Head of Paid Service.
- 1.2 Nothing in this statement should be read as in any way countermanding or altering the corporate policy.
- 1.3 This policy applies within all Community and Voluntary Controlled schools where the local authority is the employer. It does not apply for employers in other school settings, namely Voluntary Aided, Foundation, Academy or Independent schools. It is available to the Dioceses and to the Governing Body of Academies, Voluntary Aided and Foundation schools to inform them of the LA's policy and to provide a model which may be used to produce similar policies.
- 1.4 This policy is provided in accordance with Section 2 of the Health and Safety at Work etc. Act 1974. This implies that failure to comply with its requirements may be a criminal offence under the Act and may also provide grounds for disciplinary action or other sanctions.

2.0 STATEMENT OF INTENT

- 2.1 Within Community and Voluntary Controlled schools, the Local Authority acknowledges that the primary responsibility for the health, safety and welfare of all employees and non-employees, as directed by the Health and Safety at Work etc. Act 1974 and other associated legislation, rests with the local authority in conjunction with the respective Headteacher and Leadership Team of each school. Within Voluntary Aided, Foundation and Academy schools, it is the Governing Body and respective Headteacher and Leadership Team that has the primary responsibility.
- 2.2 The LA also recognises that all employees and pupils have the right to a safe and healthy working environment and is committed to ensuring compliance with all statutory duties and, within that legal framework, to encouraging best standards as far as is reasonably practicable.
- 2.3 This does not, however, absolve any member of staff from their personal responsibility to ensure their own health and safety at work and the health and safety of others who may be affected by their acts or omissions including pupils, visitors and contractors.
- 2.4 Joint co-operation between the local authority, Governors, Headteachers and employee representatives is essential to the successful implementation of this policy.

3.0 MANAGEMENT STRUCTURE OF H&S WITHIN SCHOOLS

- 3.1 Many people have roles in the successful management of health and safety within schools. Each of these has specific responsibilities and is also accountable for the carrying out of these responsibilities and for their general health and safety performance.
- 3.2 Contractors are directly accountable to enforcement officers in respect of their own health and safety but the party who engages them can also be held responsible if there is insufficient care in their selection or an insufficient degree of communication with them or local control of them.

Wiltshire Council Health and Safety Policy Statement for Schools

- 3.3 The local authority is responsible for bringing this structure to the attention of all those to whom it is relevant.
- 3.4 For the avoidance of doubt, the local authority does not take responsibility for any health and safety matter in Voluntary Aided, Foundation or Academy schools. All such schools are expected to put in place the measures necessary to comply with statutory duties and to engage any competent provider of advice necessary in order to achieve this. The local authority will allow such schools to have free access to its online Health and Safety Manual for Schools and to have paid access to its health and safety training workshops for schools. The local authority will also annually offer Voluntary Aided and Foundation schools the opportunity to purchase a site monitoring and telephone helpline advisory service to complement any other health and safety management procedures. None of this provision alters the responsibility and accountability for health and safety in these schools as set out in 2.1.
- 3.5 Advice and support on a range of health and safety related topics is available to Governors and Headteachers via Officers within the local authority. See Section 9.

- 5.1 As a broad principle, health and safety standards will be used to enhance the potential range of activities that schools undertake rather than curtail them.
- 5.2 Where it exists, specific legislation and associated approved codes of practice and guidance notes will be used to set the standard of health and safety management requirements.
- 5.3 Beyond this, the local authority, upon advice from the Head of Occupational Health and Safety, other Council officers and recognised sources of information outside of the LA, will establish more general standards to be met by school management teams.
- 5.4 In doing so, full consultation will be sought with Governor and Headteacher representatives, LA partners and Trade Union representatives.
- 5.5 School management teams should set local standards, publicised through the school's own health and safety policy, on issues where LA policy does not exist or requires more definition.

6.0 **MEANS OF MONITORING STANDARDS AND MEASURING PERFORMANCE**

- 6.1 Much of the monitoring of health and safety standards within schools should be through local self-regulation. Headteachers are expected to arrange for regular monitoring of premises, equipment and practices, by school staff and governors, against the standards set by LA and local school policy, and to take appropriate action accordingly.
- 6.2 The local authority will provide the means for a programme of school audits to be undertaken by the Council's Occupational Health and Safety Service.
- 6.3 Each Headteacher will be required to submit details of health and safety performance indicators upon request. This data will be evaluated to recognise achievements, to determine any support which may be necessary or to trigger formal intervention.

Wiltshire Council Health and Safety Policy Statement for Schools

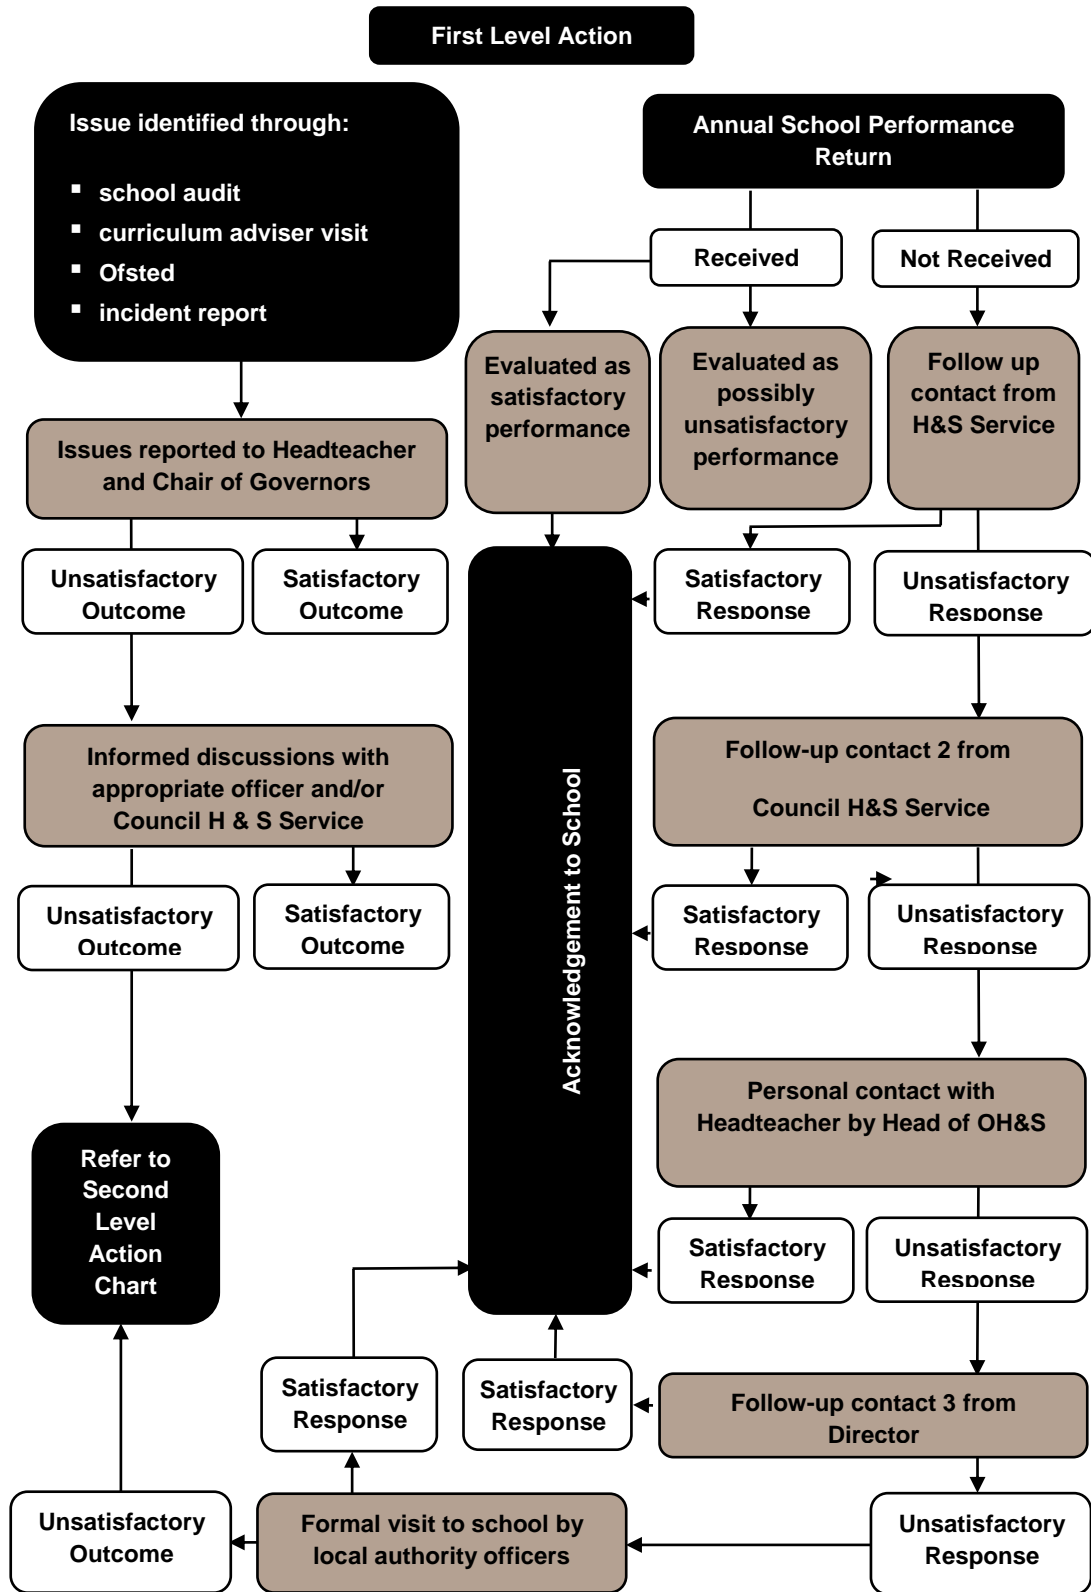

- 6.4 Health and safety responsibilities will be assessed as part of an individual's annual performance appraisal.
- 6.5 Individual schools will record, investigate and evaluate all incidents which result in harm or loss to any member of staff, child or other person arising out of, or in connection with, the school's undertakings.
- 6.6 Incidents falling within the scope of 'reportable' as defined within the Health & Safety Manual for Schools must additionally be reported to the Council's Occupational Health and Safety Service.
- 6.7 Both sets of data will be monitored and used to identify issues of concern and assess the adequacy of existing control measures.

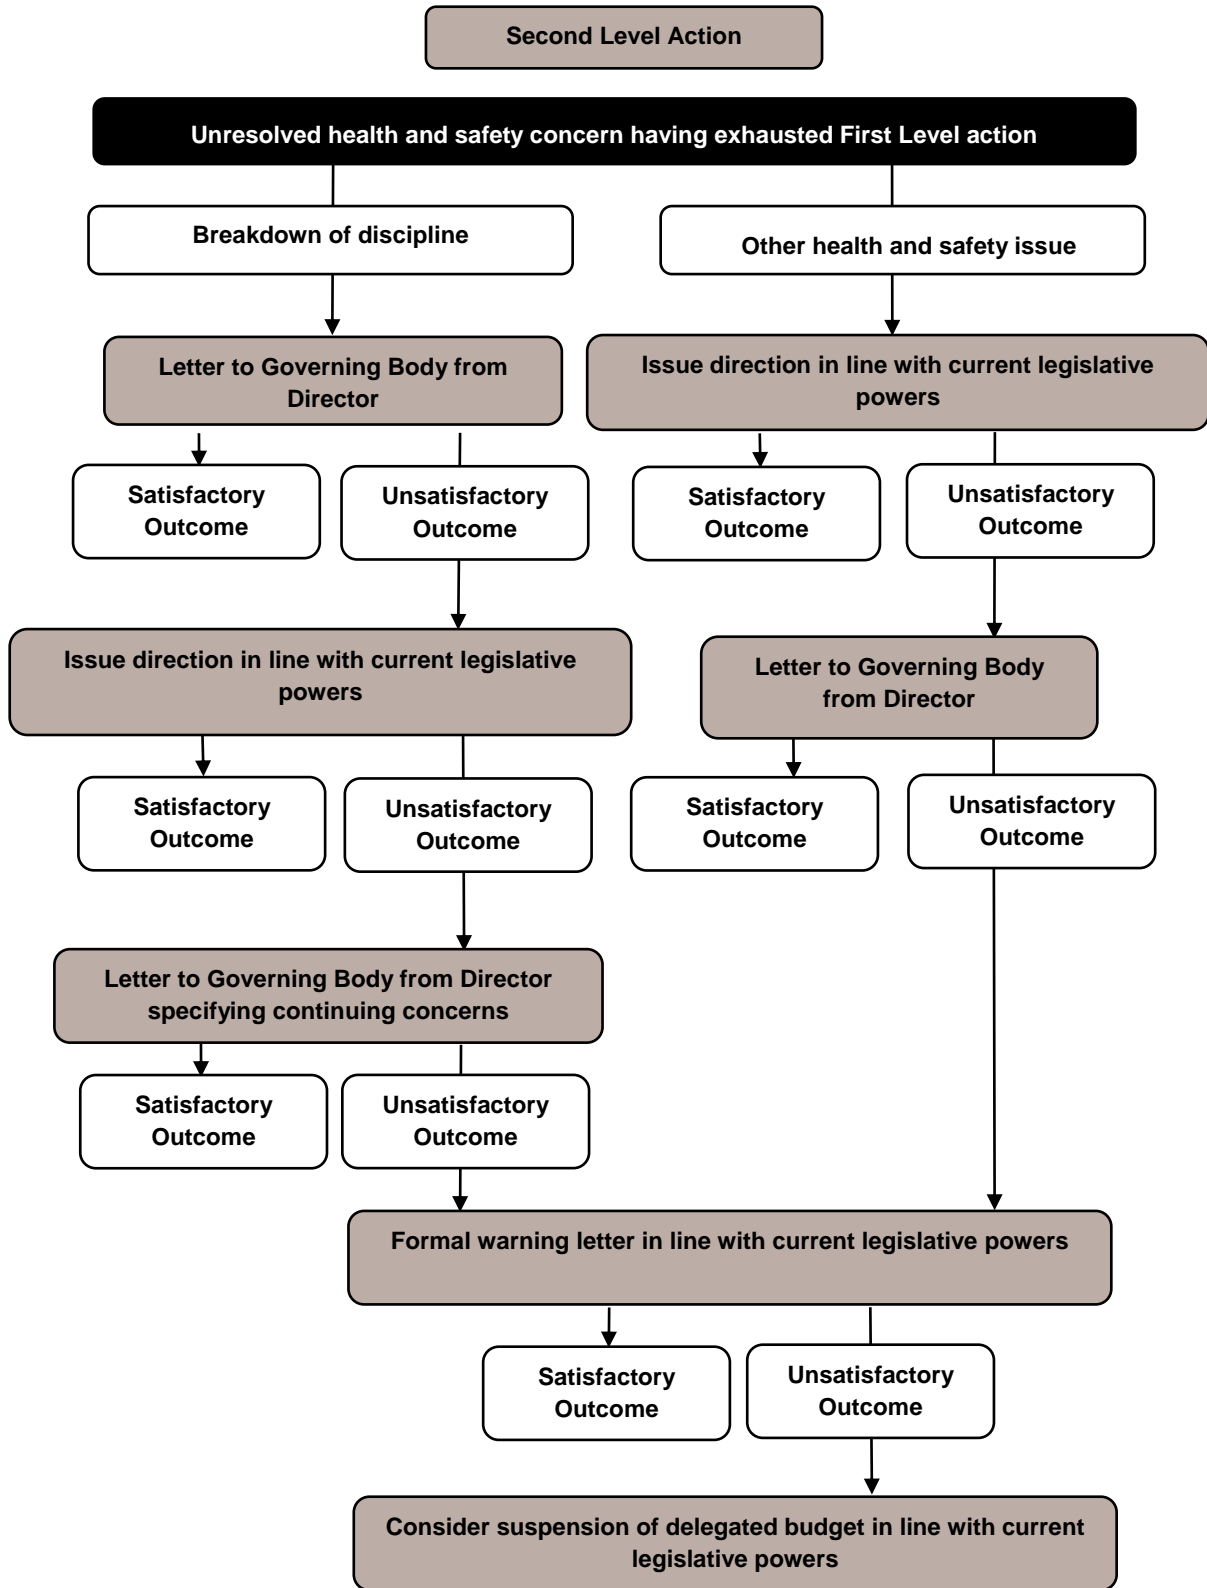

7.0 COMPETENCE AND PERSONAL DEVELOPMENT

- 7.1 All individuals with designated health and safety functions should be demonstrably competent to undertake them. Competence may be achieved through a combination of practical experience and formal Learning.
- 7.2 Personal development of school staff is a function delegated to schools.
- 7.3 A non-exhaustive list of competencies commonly required by school staff is given in the Training Section of the Health and Safety Manual for Schools on Right Choice.

8.0 INTERVENTION PROTOCOL

- 8.1 An intervention protocol will operate in the event of the Governing Body and/or Headteacher of a school being unable to secure the health or safety of those for whom the LA has responsibility. The protocol is set out in two levels and is shown diagrammatically over pages 7 and 8.
